

BROLLYRAP

Rainwater from wet umbrellas can create a serious hazard of slips, trips and falls on wet floors.

We offer Brollyrap machines that will wrap your Umbrella in a plastic sleeve and keep the floor dry.

Brollyrap is easy to use, compact in size, elegant in appearance and produced in a smart brushed stainless-steel finish.

The plastic sleeves can be supplied to suit a standard or a short Umbrella. To promote your brand, the wrapping bags can be supplied printed with your logo.

Our global buying power allows us to supply one of the most competitively priced solutions.
